BY SREENIVASA CONSTRUCTIONS

WHERE LIFE BLOOMS

Rajendranagar, Hyderabad.

Across residences and workplaces alike, Sreenivasa Constructions has quietly followed the same instinct, shaping spaces that stay close to the land they stand on.
ECORISE grows from that continuity.

But continuity, for Sreenivasa, was never just about what gets built. It has always been about what gets protected in the process of building it.

Before a single foundation is poured, the land is studied, not for what it can yield, but for what it needs to keep. The trees that have stood longest are mapped and worked around. The natural drainage of the soil is preserved so the ground remembers how to breathe after construction ends. The movement of light across the site informs where walls rise and where they don't. Materials are chosen not only for their quality, but for the quietness of their impact on the earth they arrive from.

This is not a checklist. It is a discipline that Sreenivasa has practised across twenty-four years of building, the belief that nature is not an obstacle to work around, but a collaborator to work with. That a home offered to a family should arrive to them the way the land arrived to the builder, with its integrity intact.

ARCHITECTURE BY NATURE

There is a kind of design that every architect can inspire from the slow, unhurried genius of nature shaping a landscape over centuries. The way a canopy of trees filters morning light into something golden and gentle. The way open earth gives your lungs room to remember what clean air feels like. With a backyard of 300 acres of greenery, Ecorise doesn't ask you to admire the architecture. It asks you to step inside it.

NATURE

THE GREATEST DESIGNER OF ALL TIME.

The *Element* That Begins Everything.

Light arrives before walls do. Warmth becomes the first sign that living has already started.

The *Element* That Colours Everything.

The ground decides the mood long before architecture does.
Colours drawn from mud and clay keep every step close to where it began.

The *Element* That Holds Everything.

Strength stays mostly unseen, but nothing stands without it. Form endures because something deeper chose to support it.

The *Element* That Keeps Life Moving.

Water carries movement where walls cannot. Every reflection here reminds living to remain fluid.

The *Element* That Carries Time Forward.

Growth leaves its rings quietly inside the spaces we inhabit. What lives here today continues what began long before us.

SREENIVASA SONTHALIA

ecorise

WHERE LIFE BLOOMS

A HOME AS NATURE INTENDED

Long before homes were shaped by walls and plans, they were shaped by elements. Light that warmed. Air that moved freely. Earth that held steady beneath us. Water that restored rhythm. And material that gave form to shelter without separating us from the world around it.

Together, these were never features. They were the conditions life grew within.

5 ELEMENTS. ONE WORLD

THE
HEIGHT
OF NATURAL
LIVING

THE RISE ABOVE NATURE

Dune
Cascade
Breeze
Club Retreat
Azure

DUNE

Formed slowly, like landscapes that take their time. With just twenty-nine floors, Dune brings a quieter sense of arrival within the larger composition of Ecorise. A tower shaped by stillness, depth, and the patience of land itself.

CASCADE

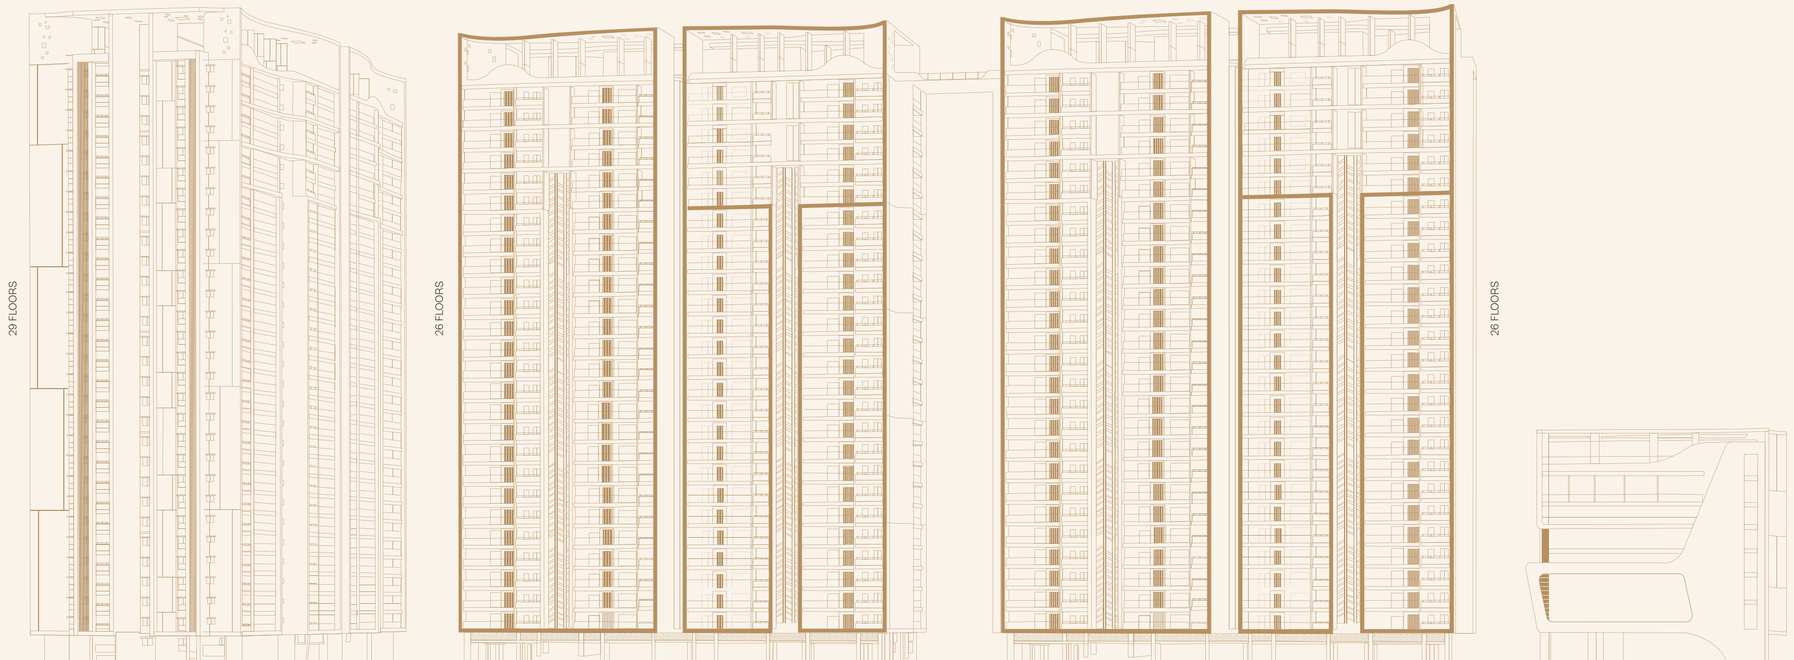

A tower shaped by continuity rather than interruption. Across twenty-six floors, space unfolds with the ease of something meant to flow naturally. Living here follows a calmer, more effortless direction.

BREEZE

The top four floors trace a gentle wave across the façade, allowing air to move as naturally as it was meant to. Across twenty-six floors arranged with openness at their core, living extends into balconies where the breeze is not an occasional visitor, but part of the architecture itself. An address shaped as much by movement as by form.

AZURE

Named after the colour of an open, undisturbed sky, Azure carries a quieter presence within Ecorise. With just nineteen floors, Azure allows more room for light, distance, and stillness to remain a part of everyday living, bringing with it a quieter sense of privacy throughout.
A rarer address within an already rare place.

THE GATEWAY TO ELITE LIFE

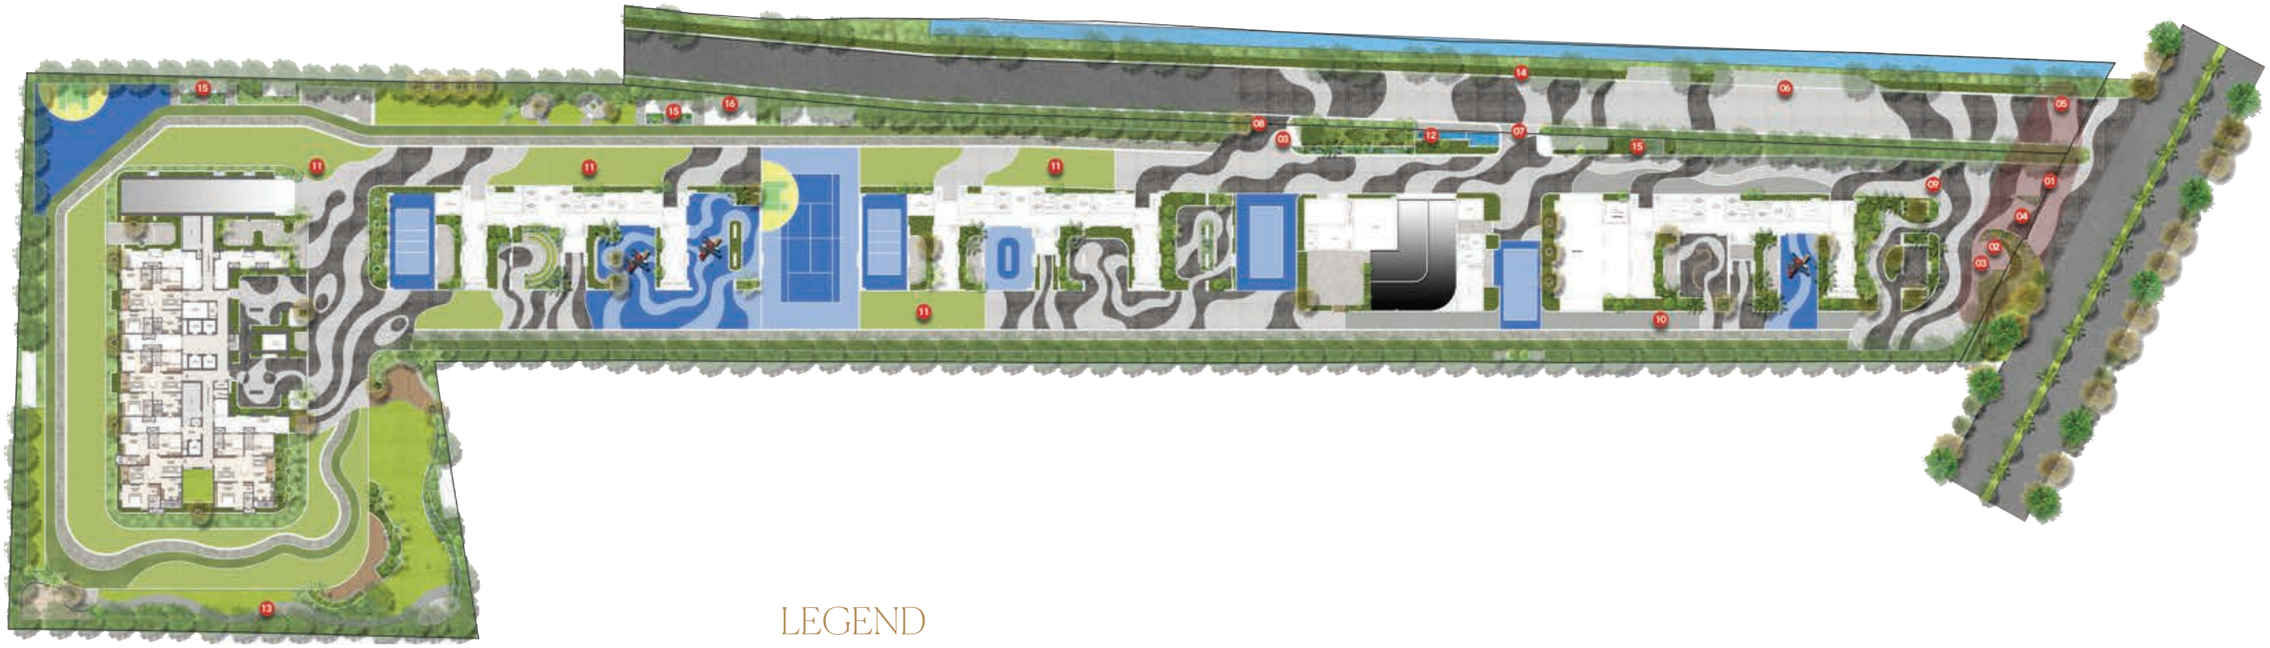

SREENIVASA
ecorise

A Calm Arrival into Nature

Arrival happens at a quiet drop-off edge. From there, vehicles step aside and move below, leaving everything above continuous, walkable, and entirely yours. Silence starts here!

Nothing by chance.
Everything by nature.

LIKE A TREE, THERE'S MORE LIVING ON EVERY LEVEL.

From the living earth of the ground floor to the open silence of the sky garden to the boundless world of the Club Retreat, every layer of Ecorise holds more than a single visit can hold. Some places visit you, differently, every single day.

Ground Floor Amenities — 1.85L Sft

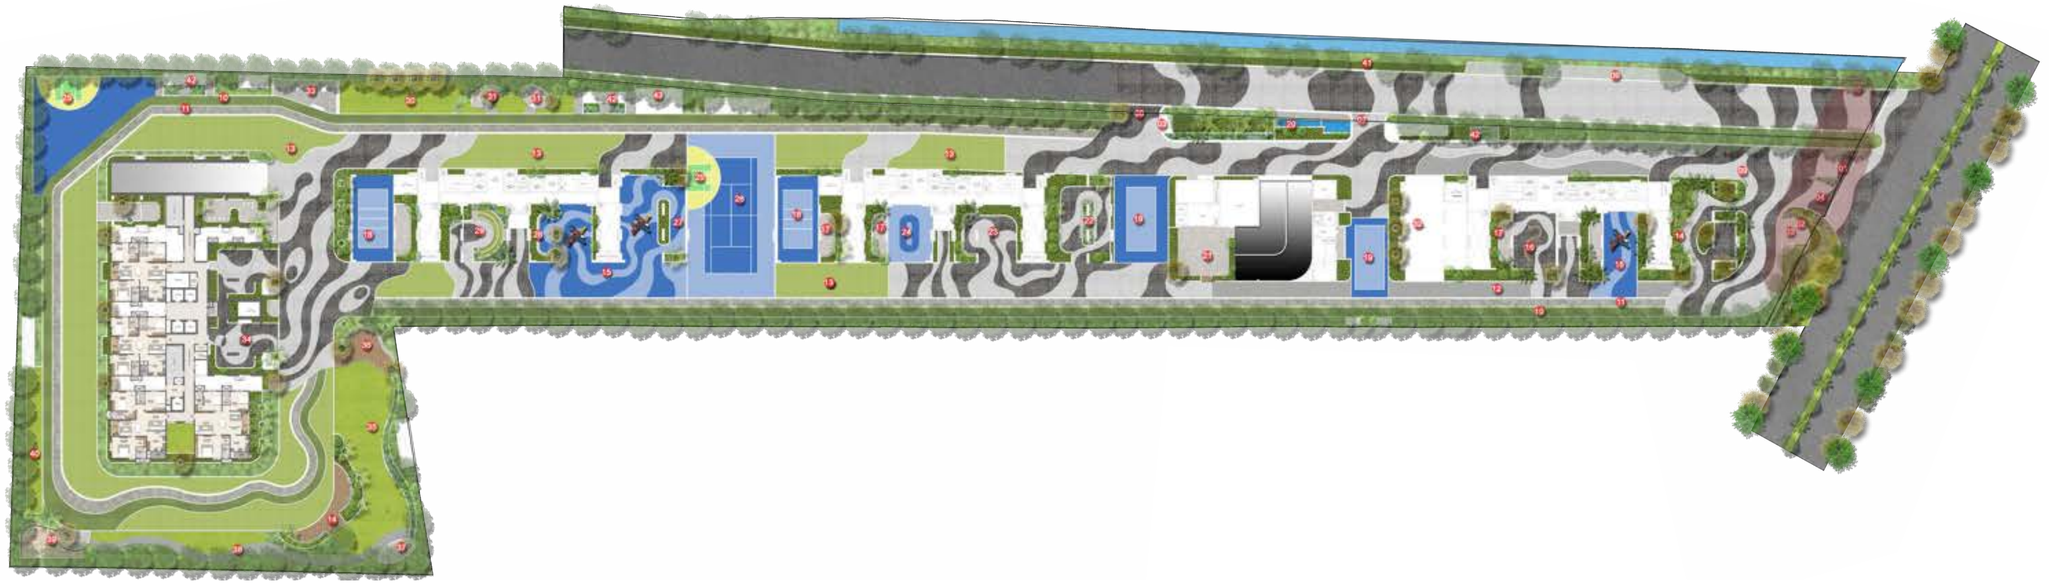

Sky Garden Amenities — 33K Sft

Club Retreat Amenities — 57K Sft

THE GROUND DIDN'T STOP AT THE PODIUM.

Across all four towers, two entire levels were set aside for a quieter way of living. Leaves, light, and movement settle naturally into the architecture itself. Biophilic nooks appear in every corner. Greenery shapes the space, and a roof above allows the seasons to pass gently overhead while life continues unhurried within.

Ground Floor Amenities

CURVED ARCH GARDEN PAVILION

THE ARCH OF LIVING

Not drawn as a route, but allowed to form slowly around light, shade, and pause. Across 1.2 acres of living green, every step feels less like a moment, and more like movement into something already alive.

RING TUNNEL WALKWAY

CIRCLE BACK TO LIFE

What begins as light becomes shade.
What grows becomes shelter. And
somewhere in between, life finds its way
back to where it belongs.

TEMPLE & SUNKEN SEATING

Your Roots Deserve A Room Too

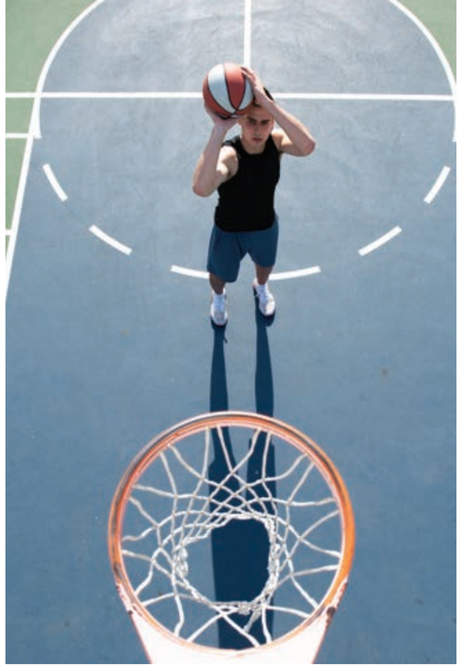

Shaped like the shelters birds return to before flight begins again. Close to the earth and gently enclosing, it carries the quiet familiarity of a temple, a space where stillness feels natural and return feels inevitable.

AMPHITHEATRE

Long before homes were measured by rooms, they were measured by the spaces people gathered in together. The amphitheatre continues that instinct, not as a monument to be looked at, but as a place to sit, watch, listen, and arrive at the same moment as everyone around you. A form older than cities, still finding its place inside them.

Play Together, Stay Together!

Some of the finest moments at Ecorise will arrive drenched in sweat, lungs burning, heart running faster than the feet. The sports arenas here were designed for the other kind of luxury, the kind you earn, point by point, lap by lap, game by game. The kind that makes everything else feel effortless in comparison.

Some places place amenities around you.
We want the land itself to become your companion,
your quiet place, and your natural habitat for
celebration and fulfilled living.

Life Draws You Right at the Ground Level.

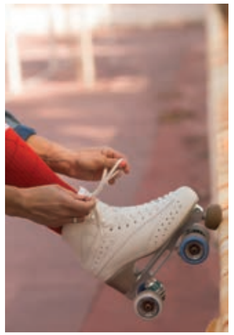

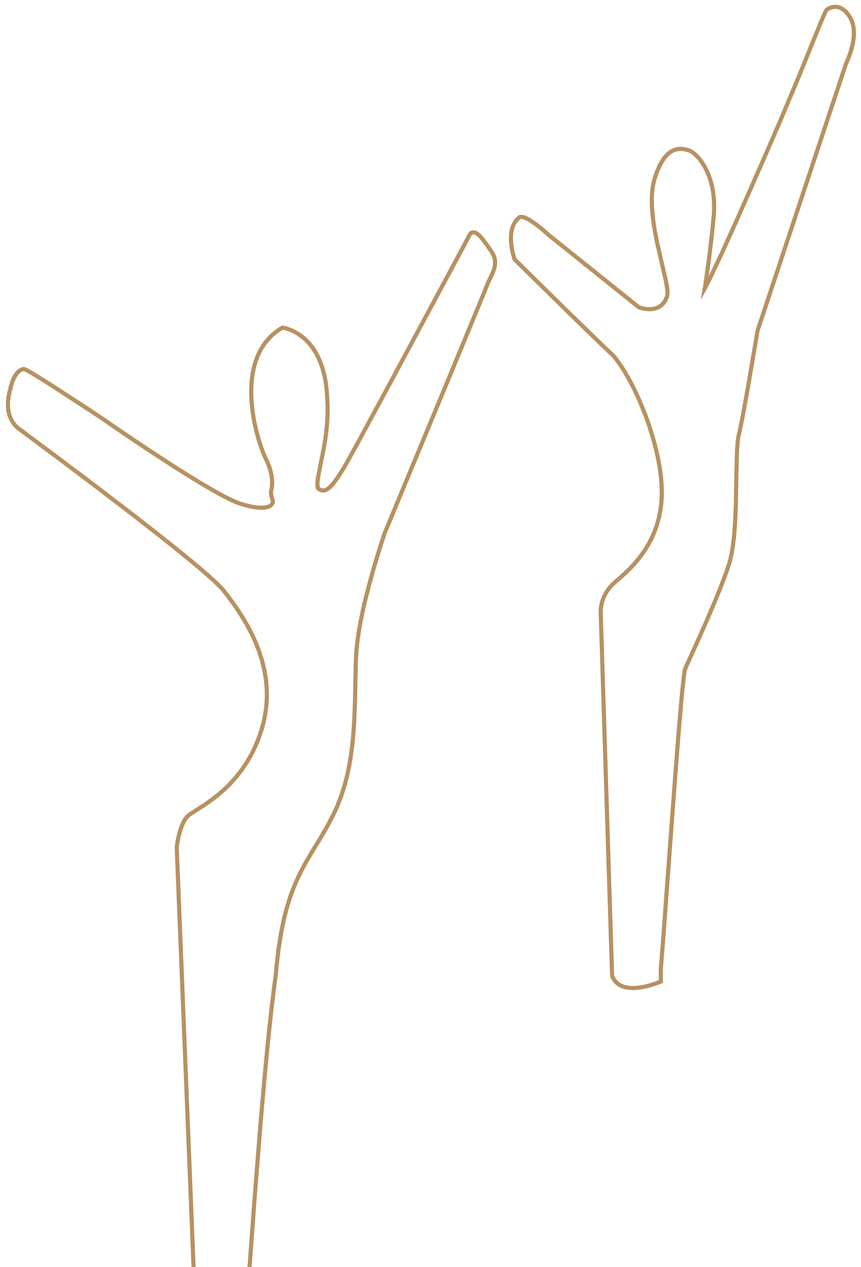

Nothing Comes Between Them And Play.

No sudden stops for rain. No running inside from the sun. Just safe, uninterrupted spaces where children can keep playing, exploring, and being themselves.

EVEN SKY WAS GIVEN A ROLE IN EVERYDAY.

Across all four towers, is the place for movement, reflection, and quiet gathering.
Not something above you, but something you live alongside. Find absolute serenity at the rooftop retreat with 33,000 sqft

Sky Garden Amenities

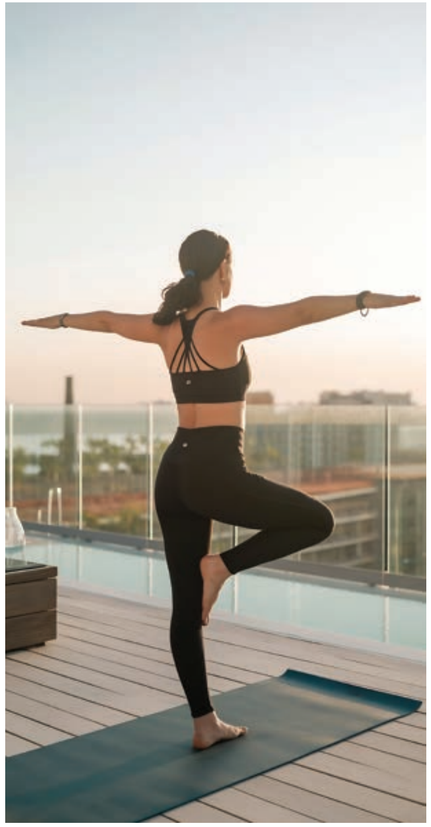

33L Sft

- Viewing Deck
- Party Lawn
- Network Nook
- Roof for Solar
- Lawn
- Yoga Meditation Lawn
- Yoga Meditation Deck
- Seater

THE SKY
IS THE LIMIT
THEY SAY...
SO WE
CROSSED
IT
Rather than stopping at the top, the architecture continues into the sky itself. Linking towers and lifting everyday life upward, these spaces transform height into something you inhabit, connections stretching further, views opening wider, and living naturally rising beyond expectation.

As They Say,

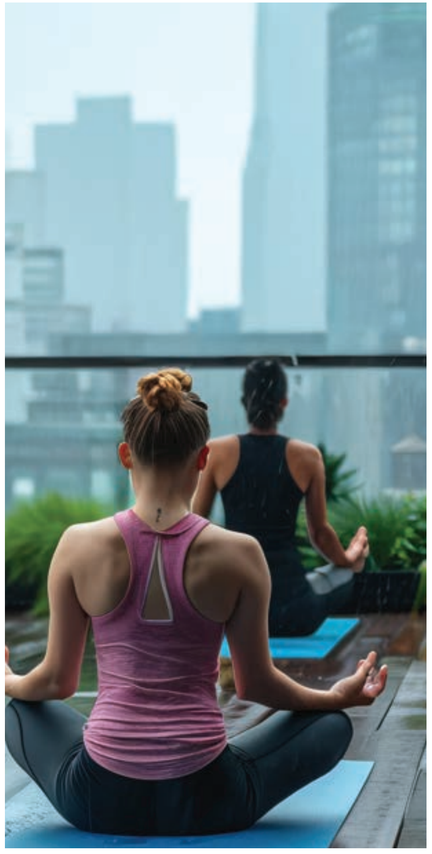

What's Good For The Body

The sky touches the earth in the sky lounge, made for yoga and meditation, every breath feels lighter. True luxury isn't complete without feeling at peace.

Is Better For

The Mind.

Barbeque & Other Party Lounges

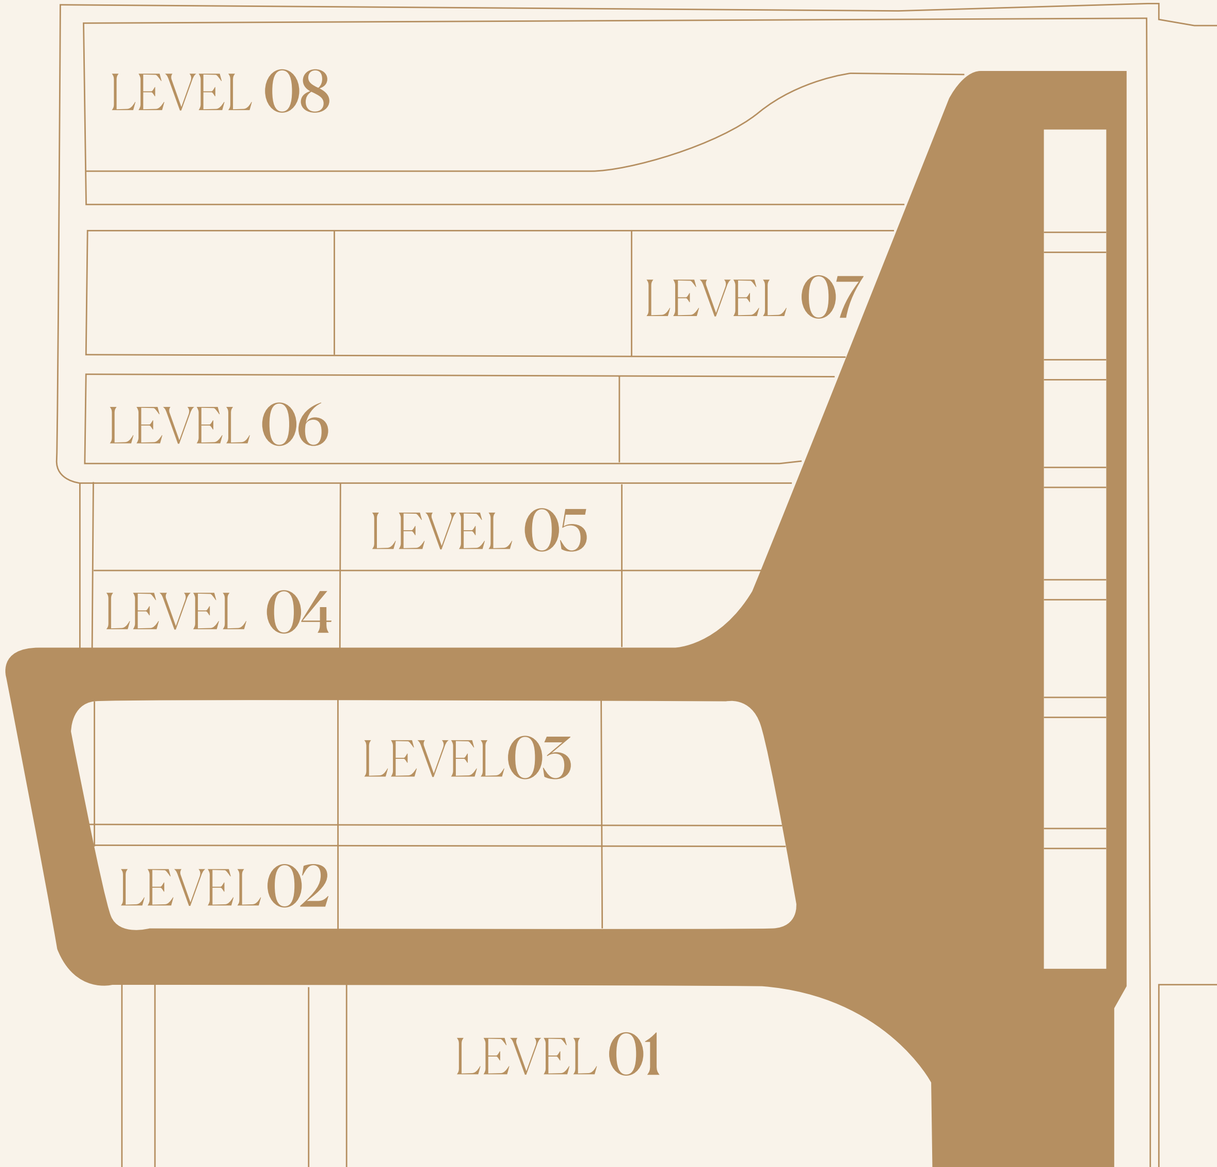

Not planned gatherings, but moments that come together on their own. Conversations stretch a little longer, evenings unfold a little slower, and spaces quietly bring people closer.

8 LEVELS OF INDULGENCE...

Club House Amenities — 57K Sft

Multipurpose Hall	Badminton Court	Co-working Space	Kids Swimming Pool
Gym	Squash Court	Indoor Library	Adults Swimming Pool
Salon	Chess	Home Theatre	Indoor Kids Play Zone
Foosball	Table Tennis	Conference Room	Seating Lounge
Carrom	Yoga Hall	Guest Rooms	
Air Hockey	Snooker	Open Party Hall	

...That One Can Call A Retreat.

Across eight levels, the clubhouse unfolds gradually, not as a single destination, but as a sequence of spaces for gathering, retreat, movement, and pause. Each floor offers its own rhythm, from quiet corners meant for slowing down to open settings designed for conversation and celebration. Together, they form a place that doesn't sit apart from everyday living, but rises naturally alongside it becoming a part of what home feels like.

CLUB retreat

Here Too, Nature Keeps You Company

The clubhouse lobby continues the same presence of light, greenery, and openness, making arrival feel less like an entrance and more like a continuation.

More Space for Life's

Across banquets, ceremonies, and shared evenings, moments step forward into a setting that already knows how to hold them.

Big Moments!

Movement On One Side.

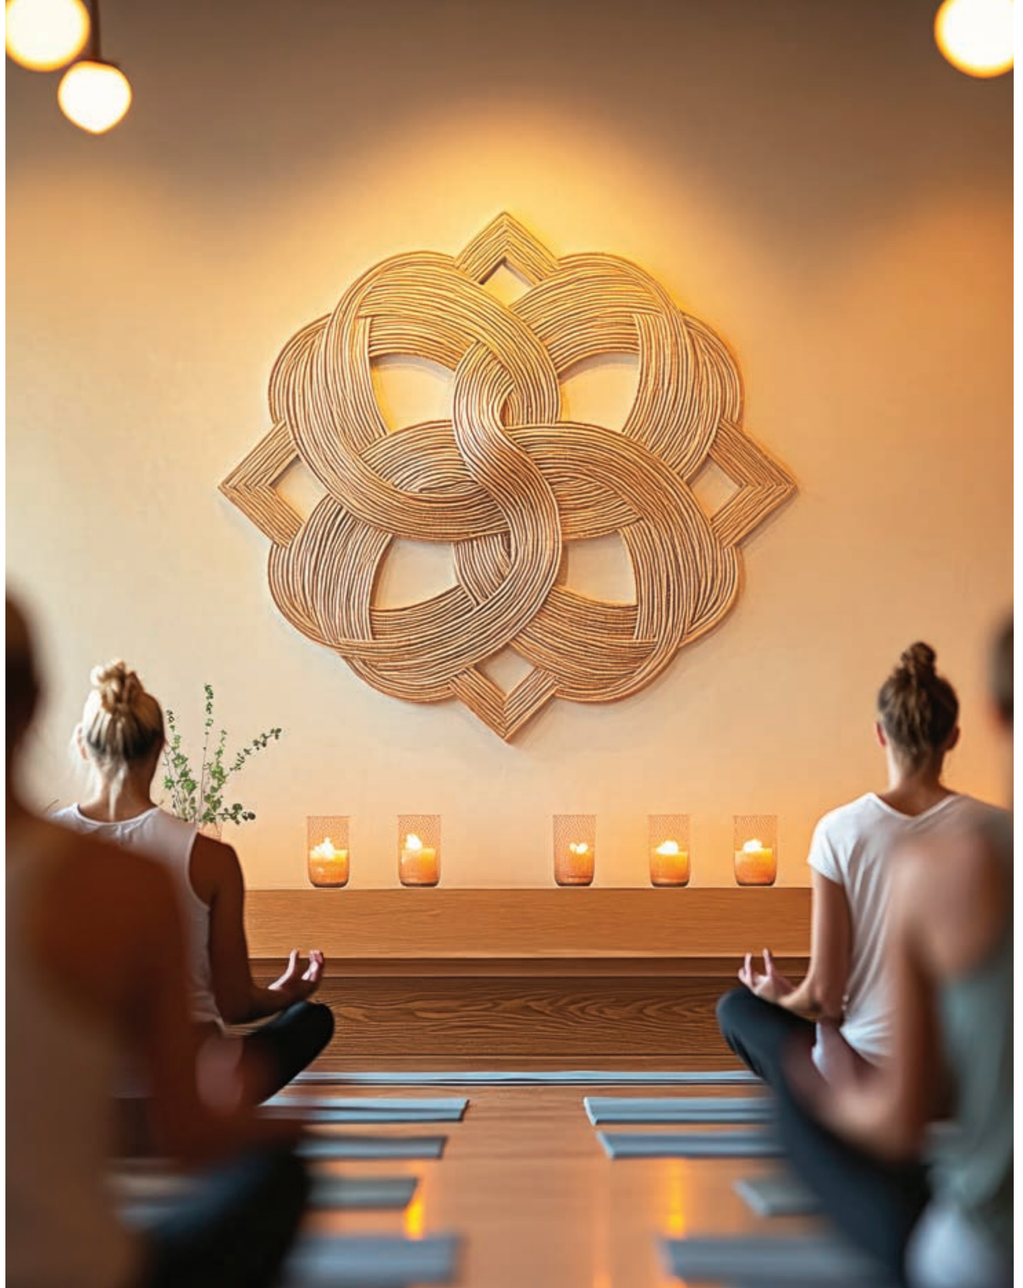

Renewal On The Other.

On one side, the body stretches into strength, movement, and quiet discipline. On the other, it slows down again, returning gently to care, balance, and itself.

Boring Routines Run Out Of Moves Here.

Across courts shaped by response and return, distance refuses to stay predictable. The body learns quickly that nothing here repeats itself for long.

Big Spaces For

Their First Adventures.

Colours turn into directions, corners become kingdoms, and every step begins to lead somewhere new.
Long before rules arrive, they already know how far the day can take them.

Work Doesn't

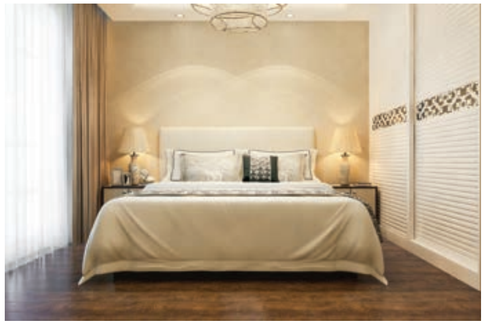

Need A Commute

Open desks for collaboration, quiet rooms for conversation, and spaces that hold focus without asking you to step away from where you live.

Anymore

A Cinematic Escape

Stay over? We have rooms for that too.

Five guest bedrooms with private balconies. A theatre that seats fourty-seven. A conference room for meetings that favour productivity and privacy that facilitates it.

Every destination in the world. Yet you chose to stay.

The living room is designed not just to impress visitors, but to remind you every single day why living here feels immersive and effortless.

Wide eight-foot branded entrance doors set the tone of arrival from the very first step into Azure, Breeze, Cascade & Dune, while aluminium-framed windows and glass-railing balconies extend the living space outward with light and openness.

1.2 ACRE GREENSPACES

We made sure green had nowhere left to hide.

Green spaces placed with one stubborn intention, that no window at Ecorise would ever be open to obstruction. Whichever floor. Whichever direction. Whichever apartment. Nature shows up. Every single morning. Nature is never out of sight, calm is never out of mind!

Deeper the roots,
the higher the rise.

A HOME THE
UNIVERSE
APPROVES OF.

100%
VAASTU
APPROVED

Crafted with Vaastu in Mind.

Each residence is shaped with careful attention to traditional spatial balance and directional harmony. Entry points, kitchens, central living zones, and sleeping areas are positioned to support clarity of movement, natural light, and a steady circulation of energy across the home. Each room follows clean, proportionate square or rectangular forms, allowing spaces to feel settled, intuitive, and quietly aligned with the way a home is meant to function.

Staff quarters are placed with equal consideration, privately accessed and thoughtfully distanced from the main living spaces, ensuring everyday functioning remains seamless while preserving comfort and dignity for everyone within the home.

Living Moved In Further.

The living room is designed not just to impress visitors, but to remind you every single day why living here feels immersive and effortless.

Wide eight-foot branded entrance doors set the tone of arrival from the very first step into Azure, Breeze, Cascade & Dune, while aluminium-framed windows and glass-railing balconies extend the living space outward with light and openness.

The Rest Of The World Can Wait

A master bedroom designed to wake up in, not just to sleep in. Wide aluminium-framed windows bring in the first light of the day, and generous proportions that allow space to settle naturally around you.

Rest feels different when the room itself is given the freedom to breathe.

11 ft.
of Impressive & Immersive.

Dining rooms are designed around family bonding. Every material, every proportion and structure reflects the same conviction: that the spaces where families gather deserve to be as considered as the people sitting in them.

Eleven-foot ceilings open the room upward, while the flooring brings calm beneath every gathering.

The Best Room Isn't Just the Bedroom.

The hierarchy was wrong all along. The room with the biggest square footage should have always been the one open to the sky. In Azure, Breeze, Cascade and Dune, we corrected that. The extended private running balcony isn't a bonus. It is the argument. Everything inside the apartment is simply making the case for why you deserve to be standing out here.

A balcony this size
deserves a question,
what does it face?

SPECIFICATIONS

Foundation & Substructure

RCC foundation & RCC Framed structure

Super Structure

Clubhouse: Conventional RCC Frame Structure with Block

All Towers: Monolithic RCC structure using Aluminium Form Work - Shear Wall Technology. The floor-to-floor height for Towers A, B, and C is proposed as 3.30 m with a corresponding lintel height of 2.45 m.
Tower D is proposed with a floor-to-floor height of 3.00 m and a lintel height of 2.15 m.

Toilets

Sanitary / CP fittings:
Shower Area: Single Lever concealed diverter with Spout and shower of Vitra /Kohler / Grohe or Equivalent.
Water closet: European Water Closet with Flush valve, Health Faucet of Vitra /Kohler / Grohe or Equivalent make.
Wash Basin: Wash basin of Vitra /Kohler /Grohe or Equivalent make.

Joinery Works

Main door: Main Door Frame: Engineered Hard Wood Frame with Polish.
Main Door Shutter: 38 mm to 40 mm both side Teak Veneer Shutter with Polish Finish.

Internal/ Bedroom/ Toilets/Utility Doors: Engineered Hard Wood Frames with Flush Shutters of 32mm thickness with laminate finish both sides

Sliding doors (for balconies): Aluminium Door Frames with Clear Glass Shutters, Provision for Mosquito Mesh Track.

Windows: Aluminium Window Systems with Safety rod (M.S) and Provision for Mosquito Mesh Track & Aluminium for Toilet Ventilators and Staircase Windows

Painting

External: Coat Primer and Two Coats of External Emulsion Paint.

Internal: Two Coats of Putty, One Coat Primer and Two Coats of Emulsion Paints of Best Brands.

Flooring

Rooms: Living, Dining, All Bedrooms, Kitchen 800X1600mm Size Vitrified Tiles.
Dadoing :600X1200mm

Toilets: Anti-Skid Tiles for flooring : 600X 1200mm

Corridors: (Vetrified Tiles). Max 800X1600mm (changes as per design

All Balconies/ utility: Mat / Antiskid tiles. (200/1200mm Strip Tiles)

Common Lobby: Vitrified Tiles Flooring .Max 800X1600mm (changes as per design)

Lift Lobby: Vitrified Tiles Flooring .Max 800X1600mm (changes as per design)

Staircase: Basement and Stilt /ground floor Granite and Balance kota stone.

Maid rooms: Rustic vitrifed tiles of reputed make : 600/1200MM

Water Supply System / Sewage Treatment Plant

Softened Water Made Available through an Exclusive Water Treatment Plant (In case of Bore Water)

The water supply system shall be designed with individual service shafts for each unit, facilitating systematic distribution, accessibility for maintenance.

Sewage Treatment plant of adequate capacity as per norms will be provided inside the project. Treated Sewage Water will be used for the Landscaping & Flushing Purpose.

Rain Water from the Terrace will be Collected in Storage Tanks and used for domestic purposes. Excess Rain Water & Open Areas Water will be collected through Rain Water Pipes, which will be discharged in the rain water harvesting pits to recharge the Ground water.

Tile Cladding

Kitchen: Dadoing in Kitchen: Vitrified Tiles Dado up to 2 height above kitchen platform

Toilets: Vitrified Tiles Tile Dado up to False Ceiling. (600X1200mm)

Utility: Vitrified Tile Dado up to 3 Height

Kitchen & Utility

Water connections: Separate Municipal Tap (Manjeera or any other water provided by HMWSSB along with Bore Well Water).

Exhausts: Provision for Chimney.

Utility: Provision for Washing Machine & Dish washer.

Lifts

Passenger Lifts & One Service Lift for Each Tower with Auto Rescue Device with V3F for Energy efficiency. (Schindler / Kone or Equivalent Make)

Internet / Cable Tv

Provision for Internet / DTH

Generator Power Backup

100% DG Set Backup

Billing System

Dual Source prepaid Energy Meter for DG Power and EB Power Billing System

Facilities For Phsically Challenged

Access Ramps at all Entrance shall be Provided for Physically Challenged.

Fire & Safety

Fire Hydrant & Fire Sprinkler System in Basements and individual units, designed and executed as per NBC and local fire authority requirements to ensure effective fire protection.

Fire Alarms & Public Address System

Electrical

Cables : Concealed Copper Wiring of Polycab or Finolex or Equivalent make.
Modular Switches: Schneider or Legrand or Equivalent make.
Power Outlets: For Air Conditioner's in All Bedrooms, For Gysers in all Bathrooms, For Kitchen HOB, Chimney, Refrigerator, Microwave Oven, Mixer, RO in Kitchen & For Washing Machine in Utility Area.

Parking Management

Entire Parking is Well Designed to suit the Number of Car Parks required. Parking signage's and equipment at required place to improve driving comfort.
Common Electric Vehicle (EV) charging shall be provided within the premises with car wash provision.

Security / Bms

Sophisticated Round – the-clock security system.
Surveillance Cameras at the Main Security, Entrance of Each Block and Club House.
Panic Button inside the Lifts
Solar Power Fencing Around the Compound

Car Parking

Each flat will have 2/3 car parks depending upon the size of the apartment and parking will be in 3 levels.

Plumbing Lines

Drainage / Sewage : PVC Pipes & PVC Fittings
Water Supply Lines: Internal and External CPVC or UPVC Pipes & Fittings

Hand Railing

Balcony : Glass Railing as Per the Elevation

A Legacy That Continues To Build Forward

For more than two decades, Sreenivasa Constructions has quietly shaped spaces that go beyond structure, creating environments that endure, evolve, and remain relevant over time.

Across residences and commercial developments alike, every project reflects a consistent approach: to build with thought, to design with responsibility, and to deliver with integrity.

With a growing portfolio of completed and ongoing developments, Sreenivasa Constructions has earned the trust of hundreds of families, not through scale alone, but through consistency, attention to detail, and a commitment to quality that stands the test of time.

Each project isn't just an addition to the skyline,
but a continuation of a philosophy, that what we build today should remain meaningful for years to come.
